## For 8 x 8 bricks

**LAYOUT 3** is for all  
images. They are  
positioned at the top or  
bottom. The total number  
of lines determines the  
size of the image. One line  
of type will allow for a  
larger image, while 4 lines  
results in a small, less  
detailed image.

Please specify whether  
image should be on top or  
bottom of brick.
