## Preserve your memories in the Memorial Garden!

- Honor a loved one.
- Acknowledge a special occasion in your life, such as a birth, baptism, wedding, or graduation.
- Celebrate your lasting connection with St. Paul's.

### The Bricks

Our Vitralase® engraved bricks by Brick Markers, USA® allow you to create your own message for a lasting memory. The patented process involves applying extreme, intensive heat to a specific area, which transforms the clay of the brick into hardened glass, creating an attractive, durable, and long-lasting engraving. This method eliminates the deterioration and erosion caused by freezing ice and snow.

### Pricing

The cost for a 4 x 8 Belden brick is \$100.00 and includes up to 3 lines of wording, with up to 20 characters (including spaces and punctuation) per line, depending upon whether a free clip art selection is also chosen. See the insert for designs and layouts, including options for clip art.

Double sized 8 x 8 bricks are also available. The cost for the larger bricks is \$200 and includes up to 6 lines of wording and up to 20 characters per line (including punctuation/spaces), depending upon the choice of art.

The initial installation of the Memorial Garden was completed in 2014 and was designed to allow future additions and expansion. Once your brick has been installed, you will be able to find it on our brick map posted in the church office.

### Why buy a brick?

You might consider purchasing a memorial brick if:

- You were once a member of St. Paul's but needed to move.
- You want to honor a loved one.
- You want to express your joy for a specific event.
- You have fond memories of St. Paul's.
- You want to be a part of St. Paul's forever, no matter where the future takes you.
- You want to help beautify the church grounds.
- You want to leave a lasting impression.

All proceeds from the campaign go to a building and grounds fund that maintains the church building, gardens, and property. The thirty-three donors who contributed to the original Memorial Garden landscaping and concrete path were given legacy bricks with a tree as shown to the side so that their contributions will be remembered.
